

PARKER'S PORTFOLIO

12/05/2020

THIS WILL BE A WEBSITE DEDICATED TO SHOWING OFF THE WORK OF ME. PARKER BOMMARITO. IT IS DESIGNED FOR MI349 BUT WILL RETAIN VALUE AND BE USED FOR OTHER CLASSES.

This portfolio has a lot of jobs. And will hopefully get me some too. I designed it to be built upon and I hope it'll grow along with me as I progress along. It will be modular for that reason alone. I will also put my current resume on there and I intent on updating that a long the way. I also plan to update my projects.

These will be a major key to any recruiter genuinely interested in my skills.

RECRUITERS

I will use this portfolio to impress employers and to compete with other candidates for a position.

EMPLOYERS

This is for the current. I will use this portfolio to try and get a good great via completing requirements.

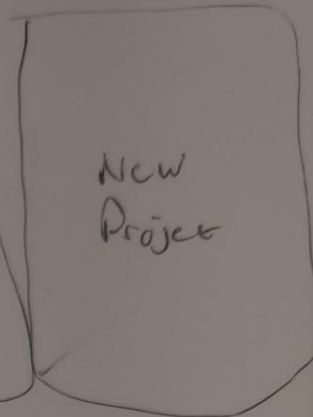

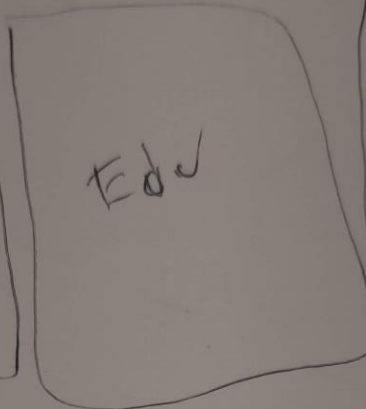

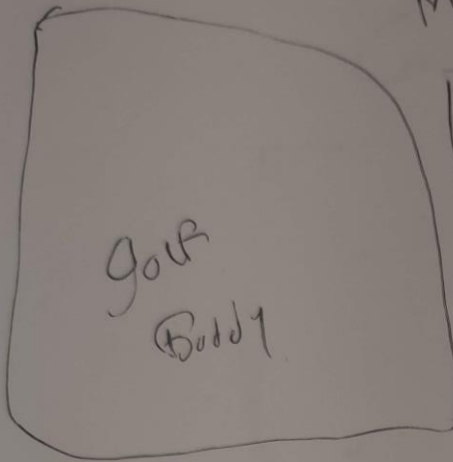

PROFESSORS

Overall, this portfolio with grow with me. It will show recruiters and employer what I have to offer them and their companies.
